EXPERIENCE

Web developer Intern at TXON IT Servises Pvt.Ltd — Feb 2023
HTML, CSS, Javascript, React js
- During this internship, I completed two projects: a To-Do list and a contact form with Captcha.
- To-Do List taught me the fundamentals of form submission and data storing, whereas by developing a contact form with Captcha, I learnt the uses and implementations of a form as well as the workings of Captcha.
- I learned the uses and implementations of a form as well as the workings of Captcha

Completed Software Engineering Virtual Experience of JPMorgan Chase & Co. — Jan 2023
Python
- The JPMorgan Chase & Co. Software Engineering Virtual Experience is an online internship program designed to provide participants with hands-on experience in software engineering at a prominent financial institution.
- During this virtual program, participants work on real-world projects, receive mentorship from experienced professionals, and gain valuable insights into the financial technology industry.
- It offers a chance to develop technical skills, problem-solving abilities, and remote collaboration skills while exploring career opportunities within JPMorgan Chase & Co.

PROJECTS

Blog app | *ReactJS, Javascript, NodeJS, MongoDB* — July 2023
- A blog app built with React.js and Node.js is a modern web application that combines the front-end power of React with the server-side capabilities of Node.js.

Government job portal using ATS | *Machine Learning, Python, Java, Spring Boot)* — Oct 2023 - Present
- Digital platform that simplifies the recruitment process for government agencies. It leverages an applicant tracking system to efficiently manage job postings, candidate applications, and the selection process.

Employee management system | *Java, Spring Boot, MySQL* — March 2023
- Software tool that enables organizations to streamline HR processes and personnel administration.

The dice game | *HTML, CSS, Javascript* — June 2022
- A dice game is a game in which players roll dice to produce random results, often involving bets or strategic choices. The goal can vary, but luck and dice outcomes play a central role in determining the winner or points earned.

Bank Transaction System | *PHP, MySQL* — Aug 2022
- Digital platform that simplifies the recruitment process for government agencies. It leverages an applicant tracking system to efficiently manage job postings, candidate applications, and the selection process.
